

NCBA CO Open Public Meeting Announcement*

The NCBA Conservation Organization's (CO) Board of Directors has met on November 21st , 2022 to discuss recent conversations held within the community and has passed the following resolution to demonstrate its respect for the opinions of our neighbors:

1. The NCBA Conservation Organization will hold a public meeting to be held in the Pentwater area on or around June 17th, 2023, based on a suitable location's availability. This date was chosen to ensure that the summer residents would be able to reasonably attend without having to undertake unnecessary travel during the winter months. The purpose of the meeting will be to get recommendations from the community on the best way for the CO to operate as an effective conservation organization within the confines of Michigan law.

2. The NCBA Conservation Organization will not engage in trail building within the conservation area or build out an entry point into the conservation area before it has received input from the greater community at the public meeting.

3. The CO will be accepting comments and suggestions from residents of the community via regular mail through the CO's PO Box 1043, or our newly established email address ncbacopty@gmail.com. This email address is monitored by all five Board Members.

4. The NCBA CO will solicit technical assistance and advice on conservation best practices from other conservation organizations such as the Land Conservancy of West Michigan.
